

THE GUINEA

WORKING SAFELY WITH OUR TEAM AND OUR GUESTS DURING COVID-19

We are incredibly excited to welcome you all back, we've been working hard to make sure we can invite you back safely and in line with the Government guidance.

Here are some of the things we have done to make sure everyone can still enjoy themselves while remaining safe.

- We have completed an exhaustive Risk Assessment that details any potential hazards and have covered all points in the government guidance. In each case we have identified ways to minimize the risk to you and our team. We've covered everything from how our teams get to work to how we clean the restaurant and prepare your food.
- *Bookings only:* You can book for food or just drinks but to keep us in line with government guidelines we will only be allowing people to join us by booking first. This will allow us to manage the number of people (guests and team members) in the building at any time as well as complying with the government track and trace program.
- *No Bar Service:* Sorry, it's sad news for us too but for now we are offering table service so that our servers can maintain social distancing wherever possible.
- *Cashless:* In order to protect our teams please be prepared to pay by card.
- *Maximum booking sizes and times:* For now the maximum number of people you can book for is 6 and we have a strict time limit of 2 hours at the table unless you have booked for after 7.30pm when you are welcome to keep the table until we close at 11pm (9pm Sundays)
- *Hand Sanitiser Dispensers:* We have added hand sanitizer points at key areas around the restaurant for you and the team. We have also distributed pocket sanitiser to the team.
- *Social Distancing:* We have rearranged the tables in the restaurant to be at least 1M apart and not facing people from other parties.
- *Additional Cleaning protocols:* All of our surface and hand sanitisers are Covid 19 effective and being used in line with robust cleaning schedules. Our team have also been issued with pocket gel and antibacterial wipes so that they can keep.

Please be rest assured that your visit with us will be a welcoming, enjoyable and a safe one.
